

Please enter the following amended claims:

Subt 1  
1. (Amended) A polysaccharide conjugate comprising a polysaccharide selected from the group consisting of xyloglucans, glucomannans, mannans, galactomannans,  $\beta$  (1-3), (1-4) glucan and the xylan family incorporating glucurono-, arabino- and glucuronoarabinoxylan, which is chemically or physically attached to a particle carrying perfume, the polysaccharide conjugate being capable of binding to cellulose.

5. (Amended) A conjugate according to claim 1, wherein the polysaccharide is selected from the group consisting of tamarind seed xyloglucans and pea xyloglucans; locust bean gum, enzyme modified guar, tara galactomannan and cassia galactomannan.

6. (Amended) A conjugate according to claim 1, wherein the polysaccharide has side chain galactose residues susceptible to oxidation by galactose oxidase.

7. (Amended) A conjugate according to claim 1, wherein the particle is physically linked to the polysaccharide.

Subt 12  
8. (Amended) A product incorporating a polysaccharide conjugate in accordance with claim 1.

9. (Amended) A product according to claim 8, comprising a laundry product selected from the group consisting of fabric washing product and a fabric conditioning product.

*h2*  
*Subt*  
*D3*  
10. (Amended) A method of targeting binding of a particle carrying perfume to cellulose by use of a polysaccharide conjugate in accordance with claim 1.

---

Add the following new claim:

*Subt*  
*D4*  
11. (New) A product comprising a polysaccharide conjugate according to claim 1 bound to cellulose so as to thereby bind said perfume carrying particle to said cellulose.

---
